PERSONAL BLOG ON IBM CLOUD

STATIC WEB APPS

INTRODUCTION:

- In this part we going to building our project.
- Start by designing and developing the static travel blog website
- Design the website layout using HTML and CSS.
- Create engaging content with captivating photos and travel stories

Website name :

STATIC TRAVEL BLOG

CODE FOR HTML:

<p>Kodaikanal
    Kodaikanal is one of the very popular holiday destination hill resorts in
South India. This hill station stands 7200 feet above sea level and situated in
upper palani hills of the westernghats near Madurai in Tamil Nadu. Kodaikanal is
also popularly known as the princes of Hill Stations.

    The cool and misty weather, the scenic beauty of the rolling hills and the
wooded forest of Kodaikanal and its surroundings will mesmerize any visitor
throughout the year. Walk through the wooded forests, row in the lake, bath in
one of the splashing waterfalls, go for horse riding and cycling around the lake
or simply admire the views.

    Kodaikanal Observatory
    The Kodaikanal Observatory of the Indian Institute of Astrophysics is located
in the beautiful Palani range of hills in Southern India. It was established in
1899 as a Solar Physics Observatory and all the activities of the Madras
Observatory were shifted to Kodaikanal.

    20cm Refractor
```

```
    A 20 cm refractor at the Observatory is used occasionally for cometary and
occultation observations. It is also sometimes made available to visitors for
night sky viewing.

    Astronomy Museum
    The Observatory has arranged a popular Astronomy museum on campus for the
visitors. The displays are mainly pictorial, supported by a few models. A live
solar image and the Fraunhofer spectrum are also presented. From April 1st to
June 15th Kodaikanal Observatory is open to public between 10:00 to 12:00 hrs and
14:00 to 16:00 hrs. For the rest of the year the Observatory will be open to
public only on every Friday between 10:00 to 12:00 hrs.

4.0.3&ixid=M3wxMjA3fDB8MHxzZWFyY2h8MXx8b290eXxlbnwwfHwwfHx8MA%3D%3D">
<p>My journey to Ooty, the renowned hill station in the southern part of India,
was nothing short of enchanting. The moment I arrived, I was greeted by the cool
mountain air and the lush green landscapes that stretched as far as the eye could
see. I had the privilege of staying at a charming colonial-era cottage that
overlooked the picturesque Ooty Lake.
```

During my visit, I explored the breathtaking Botanical Gardens, home to a rich tapestry of vibrant flowers, rare plants, and giant trees that cast a soothing shade. The scent of eucalyptus filled the air as I wandered through the terraced gardens, making the experience even more delightful.

One of the highlights of my trip was a ride on the historic Nilgiri Mountain Railway, a UNESCO World Heritage site. The quaint blue train chugged along, offering stunning vistas of the Nilgiri Hills and lush tea plantations. I felt like I had stepped back in time to an era when steam locomotives were a primary mode of transportation.

Exploring the tea estates that surround Ooty was another unforgettable experience. I spent a day at one of the local tea factories, where I learned about the tea-making process from plucking the leaves to sipping a freshly brewed cup of tea. The verdant tea gardens provided a perfect backdrop for relaxation and rejuvenation.

A visit to Doddabetta Peak, the highest point in the Nilgiri Mountains, was an absolute must. From the summit, I marveled at the panoramic views of the lush valleys and distant hills. The vista was particularly captivating during sunrise, as the sun's golden rays pierced through the mist, creating a mesmerizing spectacle.

I also took a leisurely boat ride on Ooty Lake, where the serene waters mirrored the surrounding hills and forests. The experience was peaceful and provided a moment of quiet reflection.

As the sun set over Ooty, I found myself relishing in the warmth of a cozy local café, savoring freshly baked goods and a hot cup of tea. Ooty's colonial charm, lush landscapes, and friendly locals had left an indelible mark on me.

In the end, my journey to Ooty was a harmonious blend of natural beauty, cultural exploration, and tranquility. It was an experience that left me with memories to cherish for a lifetime, and a longing to return to this captivating hill station in the future.

</p>

<p>I set on a journey to achieve my long-lasting dream of studying abroad. This one dream somehow had many other dreams attached (like traveling and living by myself) to it and one of them was visiting London.

Always fascinated by the beauty of the city as shown in Bollywood movies, this girl fell in love with London. It wouldn’t be wrong to say that my love for

London only grew stronger when I actually visited this ‘Gorgeous’ (as the English say) city.

As I set off to pursue my master’s from the UK, I first landed in London before going to Leeds. It was September, the weather was pleasant and the days were fairly short.

Since I was there with my dad, we stayed at the Novotel Hotel at Hammersmith. 3 days here, we went on to explore the city, visiting the major tourist attractions like Tower Bridge, London Eye, Buckingham Palace, and St. Pauls Cathedral as we had my dad’s friend showing us around. This was my first visit to London.

LONDON WITH FRIENDS (Visit 2)

Three months later (In December), I planned another trip to London, this time from Leeds, with my friends. We booked an Airbnb for the 4 of us and shared it with 4 other guests who stayed in a room upstairs. The worst part about this accommodation was that it was far from the main attractions and we had a shared bathroom.

This time, my experience in London was different altogether. We walked around the city on foot, at midnight. London was bustling, Millennium bridge lit and empty, Thames calm, London Eye shining and people cheerful. The best thing about London is that the English are very polite and friendly. If you caught an eye with someone, they will definitely pass a smile</p>

<p>Peace of mind
    Book with confidence, knowing that our holidays are ABTOT protected. And for added peace of mind, we can arrange your ATOL-protected flights too. Booking everything under one roof means we can take care of any flight changes and tweak your itinerary, so you don’t need to worry.

    Knowledgeable travel specialists

```
    Our knowledgeable travel specialists will help you piece together your
independent and stress-free Malaysia holiday. They'll take the hassle away by
personalising a unique itinerary that ticks all of your boxes. You'll even have
24/7 support from our local partners while you're away.

    Responsible travel
    Our holidays are designed to make good things happen, for you and the places
you visit. We believe that tourism can be a force for good, so we strive to
preserve and support local communities wherever we go. In Malaysia, you'll stay
in locally-run accommodation and get close to the culture, nature, and the people
that make the country what it is. Whether it's trying your hand at traditional
Batik Painting or sampling street food dishes with a local guide in Penang.</p>

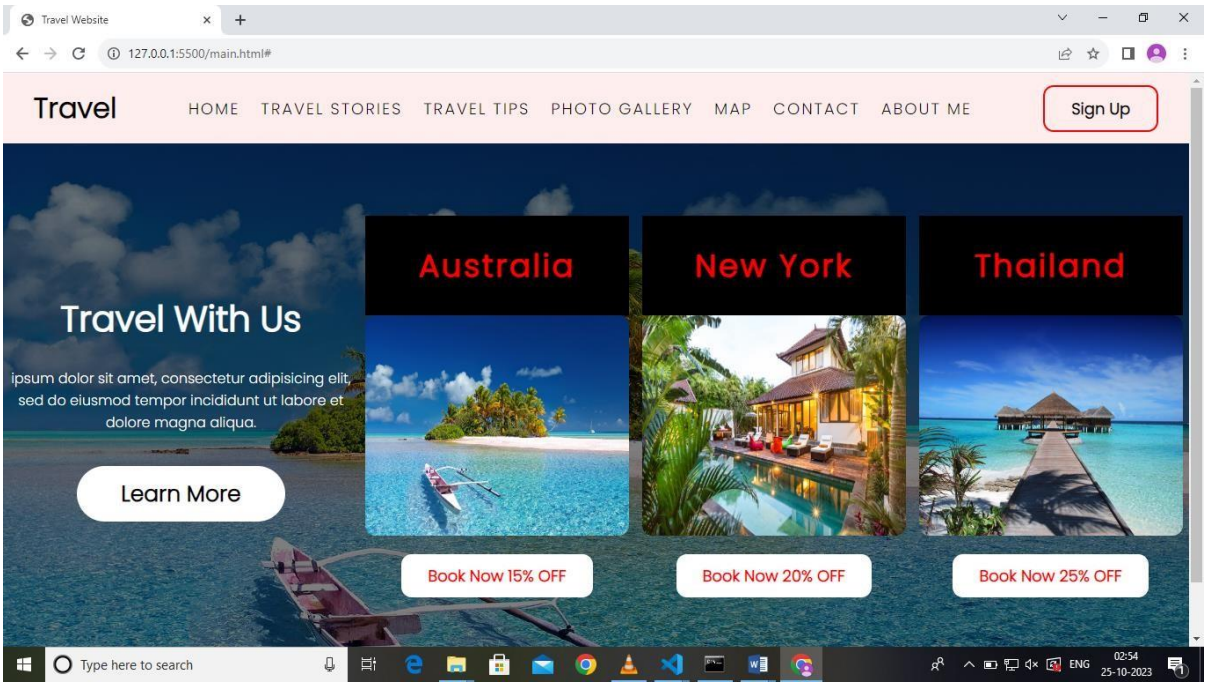
OUTPUT:



Project explanation:

Creating a website in Visual Studio involves multiple steps, and it's important to clarify that Visual Studio can be used for various types of web development, including ASP.NET, HTML/CSS, JavaScript, and more. Below, I'll provide a general overview of how to create a basic HTML/CSS website in Visual Studio. If you have a more specific type of web development in mind, please let me know.

Here are the general steps to create a simple HTML/CSS website in Visual Studio:

Step 1: Install Visual Studio
If you haven't already, you'll need to download and install Visual Studio. You can get the Community edition for free from the official website.

Step 2: Launch Visual Studio
Open Visual Studio after installation.

Step 3: Create a New Project
1. Go to "File" > "New" > "Project..." in Visual Studio.

2. In the "Create a new project" window, search for "HTML" or "Web" in the search box.

3. Select "HTML Application" or "ASP.NET Core Web Application" (choose the appropriate template for your project) and click "Next."

4. Configure your project settings and click "Create."

Step 4: Design Your Website
In the Solution Explorer, you'll find your

project files. By default, you'll have an `index.html` file.

1. Double-click the `index.html` file to open it.

2. You can now write your HTML and CSS code to design your website. You can use Visual Studio's code editor to do this.

Step 5: Preview Your Website
You can preview your website at any time. There are a few ways to do this:

- Click the "Start Debugging" button (green arrow) in the toolbar.
- Press F5 on your keyboard to start debugging.
- Right-click on your HTML file and select "View in Browser."

Step 6: Debug and Test
You can use Visual Studio's debugging tools to identify and fix any issues in your code. You can set breakpoints and inspect variables during debugging.

Step 7: Publish Your Website
Once your website is ready, you can publish it to a web server. You can do this by right-clicking your project in Solution Explorer and selecting "Publish."

Please note that this is a basic overview of creating a website in Visual Studio. Depending on your specific requirements, you may need to use additional technologies and frameworks. Visual Studio supports a wide range of web development technologies, so the exact steps may vary.

If you have more specific requirements or questions about a particular web development technology, please let me know, and I can provide more detailed guidance.
